

## Guidelines for depicting your motivation via video/audio

- The length of the recording should not exceed 4 minutes.
- The file size should not exceed 20 megabytes to avoid e-mail transmission problems.
- Please convert the video into a generic video file format like: mp3, mp4, mkv, avi, wmv...
  - o in order to create a video, you can use programs such as OBS, Zoom, etc.
- Only record yourself and not any other person to avoid the violation of privacy rules.
- Please start by stating your name.
- Please speak English in a clear and comprehensible way.
- Make sure that the audio quality is decent. Record in a quiet place and use a well-functioning microphone.
- The content should resemble a motivation letter. We encourage you to include the following points:
  - o briefly explain what you did in your (bachelor) thesis (or a similar work);
  - o describe which economic topics you are particularly interested in and you would ideally like to study more about in the master studies.
