

Welcome Week 2019

After a very insightful research presentation by Dr. Tilman Altenburg of the German Development Institute here at the university of Siegen it was decided that MEPS students should have the opportunity to learn more about the research and the working environment as well as job opportunities of the institute.

So on April 12, 2019, 22 students, and their supervisors went to Bonn to listen to an interesting lecture from the main field of Dr. Altenburg's department, that is, sustainable development which covers environmental and development economic topics.
