

## Welcome Week 2018

As in the previous years we had the pleasure to welcome our new MEPS students in Siegen and at our university, only with the difference that due to the German Reunification day the program took place during two instead of three days.

Thus, the Thursday was used to officially welcome the new students parallel to the welcome of all the new students of the faculty. Before, the first campus rally on the Adolf-Reichwein-Campus we enjoyed lunch together in the temporary cafeteria of this campus. In the evening we all met for a casual get-together in the bar Schellack.

On Friday, we started with presentations about the regulations of the studies, and further information on the university and the city. Afterwards, we started again with the fun part of the day. So the students headed over to solve quests all around the city center. At the end of this game we met again in the garden of the upper castle to enjoy snacks and some champagne. After a quick campus rally at the lower castle, the evening was all about the annual ceremony. Here the new students had the opportunity to meet senior, students, professors and alumni of the program.

All in all, it was a great joy to get to know the new students of our program. We wish them all the best for their upcoming years here in Siegen.
